SUMMARY

Aspiring Full Stack Developer with experience in website updates, user experience enhancement and system support. Detail-oriented in managing data, reports and system submissions with a track record of streamlining workflows and reducing system errors. Collaborative team player who communicates effectively under pressure. Eager to contribute by building functional features, supporting API integrations and delivering smooth, user-friendly applications.

TECH SKILLS

Languages: HTML, CSS, JavaScript, Java, SQL

Technologies/Frameworks: React, Spring Boot, Node.js, Bootstrap, JUnit 5, Jest, MySQL, Microsoft Azure, Docker

Tools: Git, GitHub, Bash, VS Code, IntelliJ, Postman, WordPress

EXPERIENCE

Generation Singapore (in partnership with Microsoft and Temasek Polytechnic) 10/2025 - 02/2026 Junior Full Stack Developer Program Trainee

- Completed an intensive full-stack developer program with hands-on projects and real-world case studies.
- Built and deployed web applications using HTML, CSS, JavaScript, React, Java, Spring Boot and SQL, delivering features incrementally with continuous feedback and testing.
- Applied debugging and problem-solving techniques to resolve issues and improve performance.

Capstone Project: MicroEdge Academy

- Built a full-stack online micro-learning platform for role-specific skill training and professional development.
- Developed a responsive frontend using HTML, CSS, Bootstrap and JavaScript and implemented RESTful backend services using Java and Spring Boot.
- Designed and integrated a SQL database, with version control and collaboration using Git and GitHub.

Business Support Executive, ON Engineers Pte Ltd, Singapore 10/2022 - 10/2025

- Maintained and updated the company WordPress website, improving accessibility and content accuracy across desktop and mobile.
- Suggested UX improvements based on user behavior and feedback, enhancing clarity and user flow.
- Streamlined Energy Market Authority (EMA) report submission process, improving turnaround time by 30%.
- Provided technical system support to inspectors, reducing navigation errors by 40% and improving workflow efficiency.
- Implemented structured data management using Excel to track, analyze and present inspection and licensing records effectively.

EDUCATION

Anna University, India 08/2017 - 08/2021

- B.E. Computer Science and Engineering (GPA: 7.29/10 - First Class)
Courses: Algorithms and Data Structures, Object Oriented Programming, Data Science, Databases

CERTIFICATIONS

Generation SG and Temasek Polytechnic Certifications

- Web Development Fundamentals (12/2025)
- Introduction to Developer Role (01/2026)
- Introduction to Programming (01/2026)
- JavaScript for Web Development (01/2026)
- Introduction to Java Programming (01/2026)
- Introduction to Relational Databases (02/2026)
- Introduction to Web Development using Java and Spring Boot (02/2026)
- React Programming (02/2026)
